Acorn International Reports Financial Results for the First Quarter of 2016

SHANGHAI, China, July 8, 2016 Acorn International, Inc. (NYSE: ATV) ("Acorn" or the "Company"), today announced its unaudited financial results for the first quarter ended March 31, 2016.

In the first quarter of 2016, Acorn effectively concluded its efforts to reorganize and turn around the business, reducing the cash burn from prior years substantially. Although revenue declined relative to the year ago period, higher gross margin, across the board reductions in operating expenses and gains from the sale of non-core assets resulted in a net profit of \$7.4 million and a corresponding increase in cash and equivalents from the end of 2015. During the quarter, the Company recorded a \$6.0 million pretax gain from the sale of non-core real estate and a \$5.6 million pretax gain on the sale of shares of Yimeng Software Technology Co., Ltd. (Yimeng), a publicly-traded company in China.

In the remainder of 2016, Acorn will continue its efforts to stabilize its core business, reduce expenses and generate additional cash flow. Management will focus on growing sales of its proprietary-branded products as well as third-party products and brands through e-commerce, its other direct sales platforms as well as its nationwide distribution network. As part of its ongoing policy to liquidate non-core assets, Acorn plans to sell certain real estate assets with a carrying amount of approximately \$18.1 million and may sell additional shares of Yimeng, as appropriate.
